NOTE 1 - ORGANIZATION

The Grizzle Growth ETF (the “Fund”) is a non-diversified fund of Tidal Trust II (the “Trust”). The Trust was organized as a Delaware statutory trust on January 13, 2022 and is registered with the Securities and Exchange Commission (the “SEC”) under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company and the offering of the Fund’s shares (“Shares”) is registered under the Securities Act of 1933, as amended. The Trust is governed by its Board of Trustees (the “Board”). Tidal Investments LLC (“Tidal Investments” or the “Adviser”), a Tidal Financial Group company, serves as investment adviser to the Fund. Grizzle Investment Management, LLC (“Grizzle” or a “Sub-Adviser”) and Cambria Investment Management, L.P. (“Cambria” or a “Sub-Adviser”) (collectively with Grizzle, the “Sub-Advisers”) serve as investment sub-advisers to the Fund. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 “Financial Services – Investment Companies”. The Fund is the successor of the Grizzle Growth ETF (the “Predecessor Fund”), a former series of Listed Funds Trust, as a result of a reorganization of the Predecessor Fund. The Fund reorganized into Tidal Trust II on August 25, 2023. The Predecessor Fund commenced operations on December 16, 2021.

The investment objective of the Fund is to seek capital appreciation.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund. These policies are in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Security Valuation - Equity securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on The Nasdaq Stock Market, LLC (“NASDAQ”)), including securities traded over-the-counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 p.m. EST if a security’s primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For a security that trades on multiple exchanges, the primary exchange will generally be considered the exchange on which the security is generally most actively traded. For securities traded on the NASDAQ, the NASDAQ Official Closing Price will be used. Prices of securities traded on the securities exchange will be obtained from recognized independent pricing agents each day that the Fund is open for business.

Investments in money market mutual funds are valued at each underlying fund’s published net asset value (“NAV”) per share as of the valuation time. Each underlying money market fund calculates NAV using the amortized cost method (which approximates fair value) as permitted by Rule 2a-7 under the 1940 Act.

Under Rule 2a-5 of the 1940 Act, a fair value will be determined for securities for which quotations are not readily available by the Valuation Designee (as defined in Rule 2a-5) in accordance with the Pricing and Valuation Policy and Fair Value Procedures, as applicable, of the Adviser, subject to oversight by the Board. When a security is “fair valued,” consideration is given to the facts and circumstances relevant to the particular situation, including a review of various factors set forth in the Adviser’s Pricing and Valuation Policy and Fair Value Procedures, as applicable. Fair value pricing is an inherently subjective process, and no single standard exists for determining fair value. Different funds could reasonably arrive at different values for the same security. The use of fair value pricing by a Fund may cause the NAV of its shares to differ significantly from the NAV that would be calculated without regard to such considerations.

As described above, the Fund utilizes various methods to measure the fair value of its investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Notes to Financial Statements

July 31, 2026

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a summary of the inputs used to value the Fund's investments as of July 31, 2026:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments:				
Common Stocks	\$ 33,122,163	\$ –	\$ –	\$ 33,122,163
Money Market Funds	195,011	–	–	195,011
Total Investments	\$ 33,317,174	\$ –	\$ –	\$ 33,317,174

Refer to the Schedule of Investments for further disaggregation of investment categories.

There were no Level 3 assets as of July 31, 2026. Accordingly, no reconciliation of Level 3 assets held during the year is presented, as such amounts were deemed immaterial.

Federal Income Taxes - The Fund has elected to be taxed as a regulated investment company ("RIC") and intends to distribute substantially all taxable income to its shareholders and otherwise comply with the provisions of the Internal Revenue Code applicable to RICs. Therefore, no provision for federal income taxes or excise taxes has been made.

In order to avoid imposition of the excise tax applicable to RICs, the Fund intends to declare as dividends in each calendar year, at least 98% of its net investment income (earned during the calendar year) and at least 98.2% of its net realized capital gains (earned during the twelve months ended October 31) plus undistributed amounts, if any, from prior years. As a RIC, the Fund is subject to a 4% excise tax that is imposed if the Fund does not distribute by the end of any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one-year period generally ending on October 31 of the calendar year (unless an election is made to use the Fund's fiscal year). The Fund generally intends to distribute income and capital gains in the manner necessary to minimize (but not necessarily eliminate) the imposition of such excise tax. The Fund may retain income or capital gains and pay excise tax when it is determined that doing so is in the best interest of shareholders. Management evaluates the costs of the excise tax relative to the benefits of retaining income and capital gains, including that such undistributed amounts (net of the excise tax paid)

Notes to Financial Statements

July 31, 2026

remain available for investment by the Fund and are available to supplement future distributions. Tax expense is disclosed in the Statement of Operations, if applicable.

As of July 31, 2026, the Fund did not have any tax positions that did not meet the threshold of being sustained by the applicable tax authority. Generally, tax authorities can examine all the tax returns filed for the last three years. The Fund identifies its major tax jurisdiction as U.S. Federal and the Commonwealth of Delaware; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations.

Securities Transactions and Investment Income - Investment securities transactions are accounted for on the trade date. Gains and losses realized on sales of securities are determined on a specific identification basis. Discounts/premiums on debt securities purchased are accreted/amortized over the life of the respective securities using the effective interest method. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Other non-cash dividends are recognized as investment income at the fair value of the property received. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Foreign Currency - Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

The Fund reports net realized foreign exchange gains or losses that arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at period end, resulting from changes in exchange rates.

Distributions to Shareholders - Distributions to shareholders from net investment income, if any, for the Fund are declared and paid annually. Distributions to shareholders from net realized gains on securities, if any, for the Fund normally are declared and paid at least annually. Distributions are recorded on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Share Valuation - The NAV per Share is calculated by dividing the sum of the value of the securities held by the Fund, plus cash or other assets, minus all liabilities by the total number of Shares outstanding for the Fund, rounded to the nearest cent. Fund Shares will not be priced on the days on which the NYSE Arca, Inc. ("Arca") or the New York Stock Exchange is closed for trading.

Guarantees and Indemnifications - In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

Notes to Financial Statements

July 31, 2026

Illiquid Securities - Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Board-approved Liquidity Risk Management Program (the “Program”) that requires, among other things, that the Fund limit its illiquid investments that are assets to no more than 15% of the value of the Fund’s net assets. An illiquid investment is any security that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Fund should be in a position where the value of illiquid investments held by the Fund exceeds 15% of the Fund’s net assets, the Fund will take such steps as set forth in the Program.

Reclassification of Capital Accounts. U.S. GAAP requires that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or NAV per Share. These differences are primarily due to a change in Paid-in capital due to redemptions in-kind. For the year ended July 31, 2026, the following adjustments were made:

Paid-In Capital	Total distributable earnings/(accumulated losses)
\$3,302,555	\$(3,302,555)

NOTE 3 - PRINCIPAL INVESTMENT RISKS

Growth Investing Risk. Growth stocks can be volatile for several reasons. Since those companies usually invest a high portion of earnings in their businesses, they may lack the dividends of value stocks that can cushion stock prices in a falling market. The prices of growth stocks are based largely on projections of the issuer’s future earnings and revenues. If a company’s earnings or revenues fall short of expectations, its stock price may fall dramatically.

Non-Diversification Risk. Because the Fund is non-diversified, it may invest a greater percentage of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund. As a result, a decline in the value of an investment in a single issuer or a smaller number of issuers could cause the Fund’s overall value to decline to a greater degree than if the Fund held a more diversified portfolio. This may increase the Fund’s volatility and cause the performance of a relatively smaller number of issuers to have a greater impact on the Fund’s performance.

Style Risk. If at any time the market is not favoring the Fund’s growth investment style, the Fund’s gains may not be as big as, or its losses may be bigger than, those of other funds using different investment styles.

As with any investment, there is a risk that you could lose all or a portion of your principal investment in the Fund. The Fund is subject to the above principal risks, as well as other principal risks which may adversely affect the Fund’s NAV, trading price, yield, total return and/or ability to meet its objective. For more information about the risks of investing in the Fund, see the section in the Fund’s Prospectus titled “Additional Information About the Fund — Principal Investment Risks.”

NOTE 4 - COMMITMENTS AND OTHER RELATED PARTY TRANSACTIONS

The Adviser serves as investment adviser to the Fund pursuant to an investment advisory agreement between the Adviser and the Trust, on behalf of the Fund (the “Advisory Agreement”), and, pursuant to the Advisory Agreement, provides investment advice to the Fund and oversees the day-to-day operations of the Fund, subject to the direction and oversight of the Board. The Adviser is also responsible for trading portfolio securities for the Fund, including selecting broker-dealers to execute purchase and sale transactions. The Adviser provides oversight of the Sub-Advisers and review of each of the Sub-Adviser’s performance.

Pursuant to the Advisory Agreement, the Fund pays the Adviser a unitary management fee (the “Investment Advisory Fee”) based on the average daily net assets of the Fund at the annualized rate of 0.75%. Out of the Investment Advisory Fee, the Adviser is obligated

Notes to Financial Statements

July 31, 2026

to pay or arrange for the payment of substantially all expenses of the Fund, including the cost of sub-advisory, transfer agency, custody, fund administration, accounting and all other related services necessary for the Fund to operate. Under the Advisory Agreement, the Adviser has agreed to pay, or require a Sub-Adviser to pay, all expenses incurred by the Fund except for interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, distribution fees and expenses paid by the Fund under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act (collectively, "Excluded Expenses"), and the Investment Advisory Fee payable to the Adviser. The Investment Advisory Fees incurred are paid monthly to the Adviser. Investment Advisory Fees for the year ended July 31, 2026 are disclosed in the Statement of Operations.

The Sub-Advisers serve as investment sub-advisers to the Fund pursuant to the sub-advisory agreements between the Adviser and the Sub-Advisers with respect to the Fund (the "Sub-Advisory Agreements"). Pursuant to the Sub-Advisory Agreements, Grizzle is responsible for the day-to-day management of the Fund's portfolio, including determining the securities to be purchased and sold by the Fund, subject to the supervision of the Adviser and the Board. For its services, Grizzle is paid a fee by the Adviser, which is calculated daily and paid monthly at an annual rate of 0.04% of the Fund's average daily net assets (the "Grizzle Sub-Advisory Fee"). Cambria is responsible for providing investment research to Grizzle, subject to the supervision of the Adviser and the Board. For its services, Cambria is paid a fee by the Adviser, which is calculated daily and paid monthly at an annual rate of 0.04% of the Fund's average daily net assets (the "Cambria Sub-Advisory Fee" and collectively the "Sub-Advisory Fees"). The Sub-Advisers have agreed to assume a portion of the Adviser's obligation to pay all expenses incurred by the Fund, except for the Sub-Advisory Fees payable to the Sub-Advisers and the Excluded Expenses. For assuming the payment obligation, the Adviser has agreed to pay the Sub-Advisers a portion of the profits, if any, generated by the Fund's Investment Advisory Fees, less a contractual fee retained by the Adviser. Expenses incurred by the Fund and paid by the Sub-Advisers include fees charged by Tidal ETF Services LLC ("Tidal"), a Tidal Financial Group company and an affiliate of the Adviser.

Tidal serves as the Fund's administrator and, in that capacity, performs various administrative, compliance and management (other than investment advisory services) services for the Fund. Tidal coordinates the payment of Fund-related expenses and manages the Trust's relationships with its various service providers. As compensation for the services it provides, Tidal receives a fee based on the Fund's average daily net assets, subject to a minimum annual fee. Tidal also is entitled to certain out-of-pocket expenses for the services mentioned above.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as the Fund's fund accountant and transfer agent. In those capacities, Fund Services performs various administrative, accounting and transfer agency and management (other than investment advisory services) services for the Fund. U.S. Bank N.A. (the "Custodian"), an affiliate of Fund Services, serves as the Fund's custodian. Prior to April 1, 2026, Fund Services also served as the Fund's sub-administrator.

Forside Fund Services, LLC, doing business as ACA Group (the "Distributor"), acts as the Fund's principal underwriter in a continuous public offering of the Fund's Shares.

Certain officers and a trustee of the Trust are affiliated with the Adviser. Neither the affiliated trustee nor the Trust's officers receive compensation from the Fund.

The Board has adopted a Distribution (Rule 12b-1) Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. In accordance with the Plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year to pay distribution fees for the sale and distribution of its Shares. No Rule 12b-1 fees are currently paid by the Fund, and there are no plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, because the fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than certain other types of sales charges.

NOTE 5 - SEGMENT REPORTING

In accordance with the FASB Accounting Standards Update 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"), the Fund has evaluated its business activities and determined that it operates as a single reportable segment.

The Fund's investment activities are managed by the Principal Financial Officer, which serves as the Chief Operating Decision Maker. The Principal Financial Officer is responsible for assessing the Fund's financial performance and allocating resources. In making these assessments, the Principal Financial Officer evaluates the Fund's financial results on an aggregated basis, rather than by separate segments. As such, the Fund does not allocate operating expenses or assets to multiple segments, and accordingly, no additional segment disclosures are required. There were no intra-entity sales or transfers during the reporting period.

The Fund primarily generates income through dividends, interest, and realized/unrealized gains on its investment portfolio. Expenses incurred, including management fees, Fund operating expenses, and transaction costs, are considered general Fund-level expenses and are not allocated to specific segments or business lines.

Management has determined that the Fund does not meet the criteria for disaggregated segment reporting under ASU 2023-07 and will continue to evaluate its reporting requirements in accordance with applicable accounting standards.

NOTE 8 - SHARES TRANSACTIONS

Shares of the Fund are listed and traded on the Arca. Market prices for the Shares may be different from their NAV. The Fund issues and redeems shares on a continuous basis at NAV, generally in large blocks of Shares, called Creation Units. Creation Units are issued and redeemed principally in-kind for securities included in a specified universe. Once created, Shares generally trade in the secondary market at market prices that change throughout the day. Except when aggregated in Creation Units, Shares are not redeemable securities of the Fund. Creation Units may only be purchased or redeemed by Authorized Participants. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem the Shares directly from the Fund. Rather, most retail investors may purchase Shares in the secondary market with the assistance of a broker and are subject to customary brokerage commissions or fees.

The Fund currently offers one class of Shares, which has no front-end sales load, no deferred sales charge, and no redemption fee. A fixed transaction fee is imposed for the transfer and other transaction costs associated with the purchase or sale of Creation Units. The standard fixed transaction fee for the Fund is \$300, payable to the Custodian. The fixed transaction fee may be waived on certain orders if the Fund's Custodian has determined to waive some or all of the costs associated with the order or another party, such as the Adviser, has agreed to pay such fee. In addition, a variable fee may be charged on all cash transactions or substitutes for Creation Units and Redemption Units of up to a maximum of 2% of the value of the Creation Units and Redemption Units subject to the transaction. Variable fees are imposed to compensate the Fund for transaction costs associated with the cash transactions. Variable fees received by the Fund, if any, are disclosed in the capital shares transactions section of the Statements of Changes in Net Assets. The Fund may issue an unlimited number of Shares of beneficial interest, with no par value. All Shares of the Fund have equal rights and privileges.

NOTE 9 - RECENT MARKET EVENTS

U.S. and international markets have experienced and may continue to experience significant periods of volatility in recent years and months due to a number of economic, political and global macro factors including uncertainty regarding inflation and central banks' interest rate changes, the possibility of a national or global recession, trade tensions and tariffs, political events, armed conflict, war, and geopolitical conflict. These developments, as well as other events, could result in further market volatility and negatively affect financial asset prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets, despite government efforts to address market disruptions. As a result, the risk environment remains elevated.
